

### **Cambridge - free app focusing on Spanish speakers learning English**

"The good thing about this app is that the level isn't what's most important. The truly important thing is that the app highlights Spanish speakers' most frequent mistakes. Learning about these is never a bad idea."

### **Voxy**

How it Works

Rather than teaching phrases that are not relevant to our learner's needs like "Janie kicks the ball", we deliver real English content that is updated daily. Voxy's learners study in context with videos of people accomplishing daily tasks, audio recordings of real-life situations, karaoke-style music lessons and up-to-date news stories from leading media companies like the Associated Press.
